Belt Vulcanizing Machine For Sale, Belt Vulcanizing Machine Manufacturer

Brand Name : AKE

Item Name : **Belt Vulcanizing Machine**

Quality System : ISO9001:2000, CE

Delivery Time : < 15 days

Place of Origin : Shanghai China

Rating : 4.6 score, 236 vote

Price : [Get Price & Support](#)

■ Belt Vulcanizing Machine Features

Belt vulcanizing machine, also known as electrothermal belt vulcanizing machine, is a special equipment for conveyor belt. The machine uses lightweight aluminum material, with a small size, light weight of single piece, easy accessibility, suitable for human move. At the same time has a fast heating, temperature uniformity, high thermal efficiency, is an ideal rubber conveyor rubber belt joint connection equipment.

■ Belt Vulcanizing Machine Applications

The product is widely used in metallurgy, chemical industry, metal mining, power plants, ports, terminals and other on-site transport gluing conveyor transport joints. Vulcanized rubber chain tension strength is not less than the original band 90%, the joint is smooth, but also reduce the wear and prolong transportation and rubber transmission belt on the service life of roller.
